

Key Stage 2 French

<p><u>Create a new uniform for the day</u> Become a fashion designer and design a new uniform for St Benet's that we could wear for a day! Can you label what you have created and describe the colour you have used?</p>	<p><u>French sing-a-long</u> While you're in the shower or bath, or even doing things around the house – can you find a song in French to listen to. See if you can try to learn how to sing-a-long! If you're stuck, there's a French section to the song 'Tainted' by well-known French singer 'Christine and the Queens'!</p>	<p><u>French meal</u> France and the French are very well known for their restaurants. Could you design and create your own menu, made up entirely of French food? The more variety on your menu, the better! Maybe you could even try to make some, sometime?!</p>	<p><u>Family Tree</u> Create a French family tree by naming everybody that is in your family (not just at home!). Don't forget to label who they are and include any pets (in French!!). Be as creative as you possibly can with your family tree!</p>
<p><u>La Télévision</u> Could you create a television schedule of programmes you and your family are watching each day? Write the time in French, not forgetting 'à' for 'at' and 'heure(s)' for 'o'clock'!</p>	<p>Colour in the boxes as you complete the task. I look forward to seeing your photos and emails as you do each task!</p>		<p><u>What's happening in France?</u> As France are our neighbours across the Channel, can you become an international journalist? In your article, can you explain to me what is happening in France at the moment, what they are doing during this time?</p>
<p><u>-er verbs (Y5 and Y6)</u> Identify 3 verbs that end in -er. (E.G regarder – to watch). Write a mini-diary of activities using different pronouns for who is doing the activity. E.G: Je regarde la television. I am watching the television.</p>	<p><u>Story time</u> Can you find any well-known French stories online to read? If you have family around, find a story to read to them as best you can without telling them what the story is! If you read it (and act out) well, they'll be able to guess the story!</p>	<p><u>Duolingo</u> If you have an iPad, tablet, or smartphone – download the app 'Duolingo' for free. There are different levels and also a wide range of topics to use! Mr Rooney uses it for other languages, so why not try to learn Spanish and see if there are any words that are similar to French?</p>	<p><u>French speaking nations</u> Create and label a map of the world of other nations whose official language is French. Can you also tell me a fact about each of the countries that speak French as an official language? <u>Clue:</u> There's a lot – especially in Africa!!</p>
