

Year 4 – Please use the bingo grid to complete your given tasks. I recommend you do an English and a Maths task every day! Don't forget to ask a grown up to tweet and/or email anything that you have been up to! Thank you for all the birthday cards and wishes! Miss Loughlin ☺

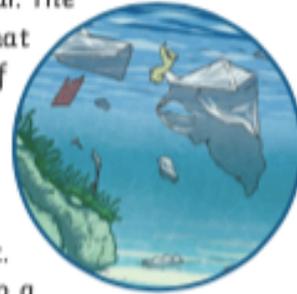

Week Beginning: 8 th June 2020			Theme: Seas and Oceans		
English	Practice your spellings at least three times a week with a preferred method. Dangerous, Poisonous, Mountainous, Joyous, Synonymous, Hazardous Riotous, Perilous, Momentous, Scandalous	Follow the link to complete the lesson on expanded noun phrases. https://www.bbc.co.uk/bitesize/articles/znpgbwk	Complete the attached reading comprehension. Read the text and answer the questions about the ocean. Clue: the answers are in the text!	Practise your handwriting in your book. Remember your tall and short letters.	Spend 15 minutes a day on Lexia to practise your English skills.
Maths	Power Maths Follow the link and accept the terms and conditions to access the Year 4 Summer home learning book online and complete week 2 – Multiplication and Division continued. https://preview.pearsonactivelearn.com/PowerMathsYear4	Play Times Tables Rock Stars and/or Hit the Button 15 minutes a day.	Create your own times tables wheel, look at the example below. Choose the times tables you want to practise more! 	Create your own daily timetable using the 24hour digital clock. Can you draw the times on a clock face? You can add some pictures to your timetable!	Create your own times tables wheel for division this time! You can choose which division facts you'd like to practise. 
Other Subjects	PSHE Create a leaflet or PowerPoint to inform others on how to choose to live a healthy lifestyle, during the difficult times of lockdown. Include tips on exercise, healthy eating and looking after yourself.	R.E. Reflect on the parable of the Lost Sheep. What does this parable mean to you? What does this story tell you about God? You could record your thoughts in an artistic way. https://www.bbc.co.uk/teach/class-clips-video/religious-studies-ks1-the-christian-story-of-the-good-samaritan-and-the-lost-sheep/zr7wxyz	Theme Can you create your own quiz about the ocean? Use the information from the comprehension to help you. You could research your own facts.	Theme Create your own under the sea animal of your choice. You could use recyclable materials and make it a home for it to live in.	Theme Research jobs that support and look after our ocean. Think back to the story 'Somebody Swallowed Stanley', how can we protect the animals in the ocean?

Year 4 – Please use the bingo grid to complete your given tasks. I recommend you do an English and a Maths task every day! Don't forget to ask a grown up to tweet and/or email anything that you have been up to! Thank you for all the birthday cards and wishes! Miss Loughlin ☺

World Oceans Day

What Is World Oceans Day?

World Ocean's Day is celebrated on the 8th June every year. The purpose of the day is to inform people about the impact that human actions have on the ocean and the importance of finding ways to conserve and protect the ocean.

What is an Ocean?

Oceans cover over 70% of the Earth's surface. They contain around 96% of all the water on the planet. Oceans are the world's largest habitat and are home to a wide variety of creatures and living things. There are 5 oceans on Earth. They are:

- the Pacific
- the Atlantic
- the Arctic
- the Indian
- the Southern

One of the ocean's most important roles on Earth is to soak up energy in the form of heat and distribute it evenly throughout the Earth. It also helps to soak up carbon dioxide.

What Is Happening to Our Oceans?

Increasing levels of carbon dioxide in the ocean has led to an increase in the acidity in the ocean. Many sea creatures cannot adapt to this change and therefore die.

Sea temperatures are rising with some areas of the ocean seeing a temperature rise of 2°C in the last one hundred years. This causes living things, such as coral, to die.

Pollution is causing major damage to oceans. Oil spills, fertilisers from fields and farms, and litter from land all pollute our oceans. This pollution kills marine life and damages plant life.

Year 4 – Please use the bingo grid to complete your given tasks. I recommend you do an English and a Maths task every day! Don't forget to ask a grown up to tweet and/or email anything that you have been up to! Thank you for all the birthday cards and wishes! Miss Loughlin ☺

World Oceans Day

One of the other biggest problems facing the oceans of the world is overfishing. This means too many sea creatures are being caught in relation to the number that are born. Some species of sea creatures are in danger of becoming extinct because of it and the balance of the ocean is under threat.

World Oceans Day 2020

Each year, World Oceans Day has a different theme. This year, the theme is 'Innovation for a Sustainable Ocean'. It focuses on ideas and innovations that will help protect the ocean and all life that depends on it. It will highlight technological advances and scientific research that will help to protect the ocean and sustain it for the future. Scientists and environmentalists are trying to find innovative ways to clear up the plastic and chemicals from our oceans. This is a big task as our oceans are sadly littered with plastic which is dangerous for marine life. Other innovations include finding ways to reuse plastic so that it does not end up in the ocean. For example, in some countries, plastic is being used to make new roads instead of concrete.

What Can We Do to Care for Our Oceans?

We can all play our part in caring for the ocean. We can:

- reduce our carbon footprint by using the car less and walking or cycling more;
- use less plastic so it doesn't end up in the ocean;
- go on organised beach cleans (if you live near the beach);
- learn more about charities and innovations that look after the oceans.
