

Welcome to Year 1

Hello girls and boys!
I am really looking forward to seeing you all in September when we start Year 1! I hope you have enjoyed happy times with your family and have some great adventures to tell me about. Mrs Davies

All About Me

I love riding my bike and hiking in the mountains. I just got a new poodle puppy called Boris! My favourite colour is turquoise and my favourite food is pancakes. I am from a place called Texas in America, but I have lived in England a long time. This summer, I am going camping in the Lake District with my teenage son and daughter.

Next Year...

In Year 1 we will get even better at our reading, writing and maths. By the end of the year you will know all your sounds and numbers up to 100 - wow! We will also learn about our world in new subjects like history, geography and science. We will learn by playing in our areas and by working at our tables. We will experiment, design, explore and create in Year 1, so get ready for a challenge!
